# Sougata Manna

3rd year BCA, Bachelor of Computer Applications, Brainware University

Phone: +91 – 9932157005
Email: sougatamanna9932@gmail.com
Address: Nibeditapally, Barasat, Kolkata, West Bengal - 700125

## Career Objective

Enthusiastic and detail-oriented 3rd year BCA student with a strong foundation in programming, web development, and real-time systems. Eager to apply my knowledge and skills to practical projects, enhance my technical expertise, and contribute effectively to a dynamic IT environment.

## Education

2023-26

Brainware University, UGC Board
Average CGPA: [8.80/10] (Cont. 5th Semester)
BCA (Bachelor of Computer Applications)

2023

12th (Higher Secondary Education)
69%
WBCHSE Board

2021

10th (Secondary Education)
72%
WBBSE Board

## Internships & Trainings

Aug-Oct' 25

**IBM Data Science Training –**

- Currently undergoing training by IBM in Data Science, covering data preprocessing, visualization, statistical analysis, and machine learning model development.

Jul–Aug' 25

**NPTEL Certification – Python for Data Science –**

- Completed a 4-week NPTEL course on Python for Data Science with a total score of 63/100. Gained hands-on experience in Python programming, data analysis, and visualization techniques using popular libraries.

April' 25

- Attended a 1-day workshop on Cloud Computing and AWS - Unlocking the Future of Technology.

## Academic Projects

Aug-Dec'25

**Online Quiz Application with AI-Powered Quiz Generator** –

- This project develops an Online Quiz Application using ReactJS and Firebase, with an AI-powered quiz generation feature. The app supports reusable React functional components, state management with hooks, dynamic rendering of quiz data, routing for navigation,

and responsive styling. The AI generator can create custom quizzes based on user provided topics and difficulty. Persistence of quiz results is implemented using local storage (and Firebase for authenticated users).

Aug-Dec'25

**Car Price Estimator & Recommendation System –**

- Developed a ML-powered web application for estimating car market cost using specifications (Engine CC, HP, Torque, Fuel Type, etc.). Implemented a FastAPI backend for model inference and data retrieval, and a Streamlit frontend with interactive charts and a car comparison module.

## Key Skills

| | |
|---|---|
| Customer Service and Office Skills | Customer interaction & relationship building<br>Service delivery , issue handling<br>MS Word, Excel , PowerPoint<br>Time management, Teamwork, communication skills<br>Data entry, reporting , documentation |
| Technical Skills | Programming Languages - C, Python<br>Web Technologies - HTML5, CSS3, JavaScript, Node.js , Tailwind CSS, React.js, Express.js, ASP.NET MVC (Basic)<br>Database Management - MySQL, MongoDB, DBMS |
| Tools & Technologies | Visual Studio Code, Git & GitHub, Postman (API testing), Firebase, Vercel |

## Additional Information

Oct' 2025

Successfully completed English Bolo, strengthening English communication skills for academic and professional use.

Hobbies: Exploring coding projects and engaging in online gaming

## Languages Known

English
Bengali
Hindi
